

WHY JUICE CLEANSE?

When a baby enters this earth, its body is “PURE” and functioning as a perfect system. Each cell in the human body is like a tiny sponge absorbing whatever it can and filtering it into the bloodstream. We live in an impure world. Immediately after birth the body must begin selectively filtering the air we breathe, the water we drink, the food we eat, the products we use on our skin.

The human body is an amazing system that is designed to cleanse what we consume, however we no longer maintain diets of pure water, whole grains, and plant based nutrition. In a fast paced lifestyle in an ever-changing world our diet now includes eating more than the minimum we need to survive, over-consumption of animal proteins, processed foods, chemicals in our beauty products, pesticides, alcohol and caffeine. We are demanding more of our bodies purification system than it can handle and therefore creating imbalance in our system. A plaque like build up accumulates on the organs creating a perfect breeding ground for disease to thrive.

We cleanse to break up and remove the toxic plaque that builds up on our organs so we may restore the “PURE” balance we were born with in this life.
